**AFRICAN DIASPORA HEALTH INITIATIVE**

The **PURPOSE** of the African Diaspora Health Initiative (ADHI) is to link specific health expertise within the African Diaspora with specific health needs in specific geographical locations in Africa.

**The VISION:**

A healthy and prosperous Africa free of the heavy burden of disease, disability and premature death

**The MISSION:**

The Africa Diaspora Health Initiative shall work with African countries and their people to reduce the heavy burden of disease and premature death through specific strategies to increase the number and enhance the quality of the health workforce in Africa; through support of best practices in clinical care and public health, and; through sustained advocacy for better health in Africa in the United States, Canada, the Caribbean and Latin America, and in Africa. In carrying out this mission, Diaspora and Continental Africans will work together, united by common goals and objectives.

**The STRATEGIC GOALS**

Goal 1: Support and enhance the healthcare work force in Africa

Goal 2: Support Best Healthcare Practices in Africa

Goal 3: Advocate for Better Health in Africa

As a strategy forward, the ADHI is creating a database of healthcare professionals and consultants committed to a healthy and prosperous Africa free of the heavy burden of disease, disability and premature death. We are identifying interested health care professionals and consultants who are willing to provide technical assistance to member states of the African Union (<http://www.africa-union.org>). Please fill out this brief form below and return it along with a copy of your **resume/CV** via email to:

Dr. Emmanuel Nwokolo; [enwokolo@capacitybuildersgroup.com](mailto:enwokolo@capacitybuildersgroup.com) or Seraphine Manirambona ([smanirambona@gmail.com](mailto:smanirambona@gmail.com)) c/o African Diaspora Health Initiative African Union Mission to the USA.

Once we receive your completed form and resume/CV, your information will be entered into a secured ADHI database. A match between a request for technical assistance and the skills and experiences of a health care professional/consultant in the ADHI database will trigger a request of availability for service to that healthcare worker from ADHI staff. All technical assistance/consulting remuneration will be negotiated prior to all contract agreements. Please contact us with any questions you may have about the process and the ADHI in general. Please 202-293-8006 and ask to speak with staff.
